

ZAINAB IMRAN

SOFTWARE QUALITY ASSURANCE ANALYST

+92 301 6226476 • zainabimran505@gmail.com • Rawalpindi, Pakistan

PROFILE SUMMARY

Detail-oriented Software Quality Assurance Analyst with hands-on experience across manual and automated testing for web and mobile applications, including WordPress-based CMS platforms. Skilled in API testing, regression suite maintenance, and end-to-end test case design within Agile delivery cycles. Strong track record of defect lifecycle management and cross-functional collaboration with developers and product managers to safeguard release quality.

CORE SKILLS

Testing: Manual Testing, Test Automation, Regression Testing, Smoke Testing, Functional Testing, UI Testing, API Testing

Tools & Methods: Postman, WordPress, SDLC, STLC, Agile / Scrum, Test Case Design, Test Documentation, Dashboard Reporting, Bug Tracking

Professional: Communication, Team Collaboration, Time Management, Critical Thinking, Problem Solving, Client Support, Leadership

WORK EXPERIENCE

Software Quality Analyst

April 2025 – Present

Brantum Technologies

- Tested and validated WordPress-based CMS platforms across web and mobile flows, ensuring content accuracy and functionality across releases.
- Designed and executed manual and automated test cases across functional, UI, regression, and smoke test cycles.
- Performed API testing using Postman to validate backend functionality and data integrity.
- Maintained regression suites, QA dashboards, and structured test documentation to support release readiness.
- Led bug tracking and reporting end-to-end, ensuring fast triage and resolution with development teams.
- Collaborated closely with developers and project managers within Agile sprints to optimize QA coverage and release quality.

Teacher

Sep 2024 – Feb 2025

Smart Lyceum School

- Delivered structured lessons and assessments, developing strong planning, documentation, and communication habits directly transferable to QA reporting and stakeholder updates.
- Monitored progress and gave constructive, detailed-focused feedback — reinforcing the analytical and quality-review mindset now applied to test execution and defect analysis.

KEY PROJECTS TESTED

Cosignage Player *player.cosignage.com*

- Performed functional and UI testing on the digital signage player sign-in and content-playback flows across browsers.

Yomie Stream Console *streams.yomie.be*

- Tested the streaming management console covering login, stream configuration, and console functionality.

Yomie Web Player *webplayer.yomie.be*

- Conducted UI and playback testing on the web-based media player across devices and browsers.

LexiGoGo (Mobile App) *lexigogo.com*

- Performed mobile app testing across core user flows, ensuring functional accuracy and consistent UI behavior.

Dimunet WP License *wplicense.dimunet.com*

- Tested the WordPress licensing platform, validating license activation, management flows, and platform stability.

EDUCATION

B.S. – Information Technology *2021 – 2024*

University of Punjab

ICS – Computer Science

Board of Intermediate & Secondary Education

2019 – 2021

KEY STRENGTHS

- Clear written and verbal communication with stakeholders at all levels.
- Proven ability to work in fast-paced, collaborative Agile team environments.
- Strong organizational skills and attention to detail across documentation and reporting.
- Empathetic, end-user-focused approach to understanding product feedback and issues.
- Adaptable and quick to learn new QA tools, frameworks, and workflows.
- Committed to continuous improvement and consistently high-quality release outcomes.
